Dear Georgia Secretary of State Open Records Requests,

I hereby request from the Georgia Secretary of State *and its agents* full and complete copies of any/all inventory forms, purchase orders, purchase receipts, requisition forms, or other inventory-type documents for the silver Hewlett Packard used by Misty Hampton in the elections office during her time as Coffee County election supervisor.

On Nov. 15, 2023, in the ongoing federal civil case *Coalition For Good Governance et al v. Coffee County Board of Elections and Registration* (CASE #: 5:23-mc-00001-LGW-BWC) in the Southern District of Georgia, Oliver Maner attorney Ben Perkins told Judge Benjamin Cheesbro that he, Perkins, on behalf of the Coffee County Board of Elections and Registration, believes the silver laptop sought by the plaintiffs in that case *could* have been issued to Coffee / elections board by the Georgia Secretary of State's office. So, I am seeking a document from you proving or disproving that be so; I assume it would be some sort of record falling into the colloquial category "inventory form" but if there's another type of record sufficing, please do feel free to send that.

I direct this request with specificity to the Georgia Secretary of State. If even a single email has ever been created or received by the Secretary of State on this topic, for example, it is a responsive record under Georgia law.

For your reference, I'll pay Invoice #D2383 for GASOS ORR #23-414 in full on Friday November 24.

I prefer delivery by email to this address of mine.

Sincerely,

Douglas Lucas
